PROFESSIONAL SUMMARY

Fullstack Developer with 3+ years of experience building scalable React & Node.js applications. Skilled in frontend optimization, backend architecture, microservices, and team leadership. Proven track record delivering high-impact government, healthcare, and enterprise projects. Mentor to junior developers and effective collaborator across cross-functional teams. Seeking Medior/Senior Fullstack or React Developer role (Czech Republic / Remote).

TECHNICAL SKILLS

Frontend: React.js, Next.js, Redux, TanStack Query/Router, TRPC, WebSockets, HTML5, CSS3, TailwindCSS, Sass/SCSS

Backend: Node.js, NestJS, Express.js, Koa.js, REST APIs, GraphQL, Microservices

Databases: PostgreSQL, MongoDB, MySQL

Cloud & DevOps: Docker, AWS (S3, EC2, Deployment), GitLab CI/CD, GitHub Actions, Vercel, Linux

Testing: Jest, Unit & Integration Testing

Tools & Languages: Git, Jira, Figma, Apache Kafka | JavaScript, TypeScript, C#, SQL

CORE COMPETENCIES

- **Technical Leadership:** Team mentoring, code reviews, cross-functional collaboration
 - **Problem Solving:** System architecture, performance optimization, debugging
 - **Project Delivery:** Agile/Scrum, timeline management, risk assessment, QA
 - **Communication:** Stakeholder management, technical documentation
-

PROFESSIONAL EXPERIENCE

Frontend Developer – Meditorial

Oct 2024 – Jul 2025 | Healthcare Platform

Built and maintained internal business apps and public platform prolekare.cz using React & TypeScript

- Developed reusable, responsive UI components, boosting development speed by 25%
- Optimized application load times by 35% and enhanced cross-browser compatibility
- Integrated AWS S3 for secure image and asset storage
- Collaborated in Agile sprints with Git, Jira, and CI/CD pipelines

Tech: React.js, Next.js, TypeScript, TailwindCSS, Git, Jira, CI/CD, AWS S3

Fullstack Developer – JUMP soft a.s.

Mar 2023 – May 2024

- Developed ÚDZS app for 500+ active users with 99.9% uptime
- Built EForms platform processing 1,000+ daily submissions
- Improved frontend performance by 40% and reduced HR processing time by 60%
- Mentored 2 juniors, increasing team productivity by 30%

Notable Projects: Slovak Chamber of Tax Advisors, Electronic Forms Platform, Healthcare Oversight Office (ÚDZS), Daily Menu Scraper (95% accuracy)

Tech: React.js, TypeScript, Java, PostgreSQL, Docker, TailwindCSS, TanStack Query

Backend Developer – Navisys, Brno

Feb 2022 – Jan 2023

- Designed and implemented backend logic and REST APIs (50+ endpoints) with NestJS & PostgreSQL
- Developed scalable license management system for enterprise clients
- Achieved 85% unit test coverage and improved system reliability by 25%
- Automated monitoring and error tracking, reducing downtime by 30%

- Deployed applications on AWS for high availability and scalability

Tech: Node.js, NestJS, Vue.js, PostgreSQL, Git, AWS (Deployment)

React Developer Intern – Think Easy s.r.o., Prague

Apr 2021 – Jun 2021

- Built real-time monitoring components with WebSockets, improving accuracy by 20%
- Participated in Agile sprint planning and Git-based workflow

Tech: React.js, TypeScript, WebSockets, Git, Jira

Fullstack Developer – School Project

Sep 2019 – Jul 2020

- Developed Library Management System with user roles, CRUD, authentication, and authorization
- Integrated AWS S3 for image uploads and secure media storage
- Reduced manual library management workload by 50%

Tech: React.js, Node.js, MongoDB, AWS S3

Frontend Developer Intern – Erasmus Program – Think Easy s.r.o., Prague

Oct 2019

- Implemented order forms & file uploads, integrating with backend via Zoho Hooks
- Streamlined UI and reduced order processing time by 50%

Tech: React.js, Redux, Styled-Components, Zoho Hooks

EDUCATION

University of Žilina – Computer Science

2020 – 2021

Focused on practical software development and real-world internships

Secondary Technical School, Bardejov – Technical Lyceum (IT)

2016 – 2020

- Erasmus participant in Prague

- 3 regional software competition wins
 - Graduated with honors (GPA: 3.8/4.0)
-

CERTIFICATIONS & LEARNING

- React Advanced Patterns & Performance
 - Modern JavaScript & TypeScript Best Practices
 - Microservices Architecture Design
 - Node.js & C# Modern Practices
-

ADDITIONAL QUALIFICATIONS

Leadership: Led frontend team, conducted 50+ code reviews, mentored juniors

Languages: Slovak (Native), English (B2), Czech (Conversational)

Work Authorization: EU Citizen, Immediate start, Open to relocation (CZ) / Remote
